Your Lab Results Guide

# Essential Blood Panel — Male

Everything you need to know about your lab panel — what we tested, why it matters, and what comes next.

**Price:** $350

**Includes:** Labs + Provider Review

WHAT WE TEST

## Your Essential Panel

A comprehensive baseline covering your hormones, thyroid, metabolism, and general health markers.

### 🩸 Basic Health

- ✔ CMP (liver, kidneys, blood sugar)
- ✔ Lipid Panel (cholesterol, triglycerides)
- ✔ CBC (blood cells, anemia, infection)

### 🧬 Hormones

- ✔ Testosterone (Total & Free)

- SHBG
- Estradiol
- FSH

### 🦋 Thyroid

- TSH
- T3 Free
- T4 Total
- TPO Antibodies

### 📊 Metabolism & Vitamins

- Fasting Insulin
- HgbA1c
- Vitamin D

WHAT'S INCLUDED

## More Than Just Lab Work

Your panel includes a one-on-one visit with your provider to review every result.

### 🔬 Full Lab Panel

All biomarkers listed above drawn at our clinic. Results in 3-5 business days.

### 👨‍⚕️ Provider Review

Your provider reviews every result with you, explains what it means in plain language, and discusses next steps based on your goals.

### 📋 Fasting Required

Fast for 8-12 hours before your blood draw for accurate insulin, glucose, and lipid results. Water is fine.

WHY THESE MARKERS

## What Makes This Panel Different

Most doctors check total testosterone and call it a day. We test free testosterone — what your body actually uses. We run a full thyroid panel including antibodies, not just TSH. We check fasting insulin to catch metabolic issues before they become diabetes. And we use optimal ranges — not just "normal" — because normal includes sick people.

**Important:** Individual results vary. Lab results are reviewed and interpreted by licensed providers. These tests are not intended to diagnose, treat, cure, or prevent any disease

without clinical context.

## Questions? We're Here.
