

Still tired, inflamed, or slow to bounce back? Let's see what your labs say.

Your sessions help your body heal from the outside in. Labs help us see what's going on inside so we stop guessing.

WHO THIS IS FOR

- You feel tired, foggy, or wired-and-tired most days
- Soreness, flares, or injuries linger longer than you'd like
- You've been told "your labs are fine," but you still don't feel fine

WHAT YOU GET

Energy & Inflammation Lab Check for Recovery Patients

- Focused lab panel on energy and inflammation markers
- Symptom questionnaire you can finish in a few minutes
- 1:1 visit with a medical provider
- Simple written summary you can actually understand
- Recovery Roadmap with possible next-step options
- Fast-track lab draw within 7 days for current hyperbaric and red light patients
- **Free red light session when labs are completed in the next 14 days**

WHY NOW

We reserve a limited number of Lab Check spots each week for current hyperbaric and red light patients. When those fill, we pause booking until the next week.

Before you leave today:

1. Tell the front desk "Lab Check"
2. Or scan this QR code to see open times
