Most people who feel a real difference with HBOT do at least 10–40 sessions. The easiest way to do that is our Oxygen Recovery Membership (HBOT + Red Light 2x/week for 3 months).

WHAT A SESSION LOOKS LIKE

You lie back in a pressurized chamber and breathe oxygen-rich air for 60 minutes. It's quiet, comfortable, and you can watch a show or nap. The increased pressure helps your body absorb far more oxygen than breathing normally — which supports healing, recovery, energy, and brain function.

INCLUDED WITH EVERY MEMBERSHIP

Two Essential Lab Panels + Provider Consultations — \$700 value, on us.

Every HBOT membership includes two Essential bloodwork panels (normally \$350 each) with a provider consultation at each draw. One at the start of your membership and one at three months — so you and your provider can track exactly how your body is responding.
